OUR PROJECT.

Supported by the Guardian Hand Project voluntarily and with passion and lifeblood the neediest children in Manila and other slums in the Philippines.

THE SMOKEY MOUNTAIN

It is on Manila's garbage heaps, Smokey Mountain, that the Guardian Hand Team's help is most needed. Marked by lots of rubbish, acrid smells and dust, the children live here in shabby barracks under unimaginable conditions.

Some of them are orphaned, The children are underserved or no proper clothing. There is a lack of health care and school education.

**PHILIPPINES,
TONDO:**
Smokey Mountain,
in Manila

Just **70 cents** are enough to give a child a warm meal, fruit and drinking water.

**70 CENTS FOR A LAUGH.
BE SOMEONES REASONS TO
SMILE.**

Our team regularly organizes the distribution of food and provisions for hundreds of children. In addition to basic care, the children receive clothing and medical care if necessary. In cooperation with Filipino teachers we promote education in our mission house. A school for needy and disabled children.

THIS IS WHAT OUR PROJECT STANDS FOR:

Every donation, no matter how small, goes 100% to the children.
